TreeMaps

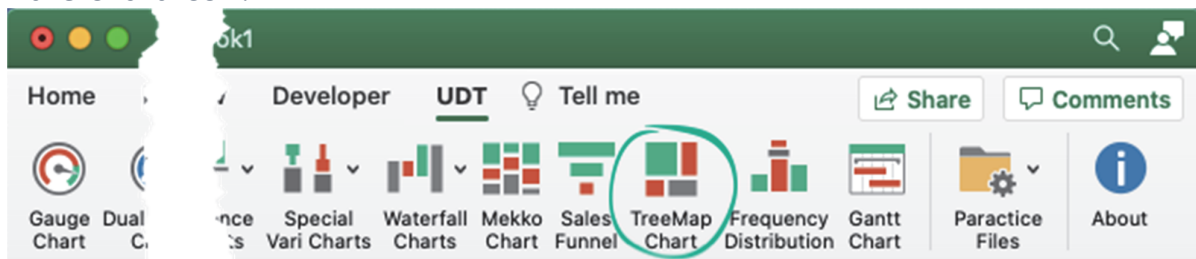

A treemap chart provides a hierarchical view of your data and makes it easy to spot patterns, such as which items are a store's best sellers. Rectangles represent the tree branches, and each sub-branch is shown as a smaller rectangle.

How to create a new TreeMap chart?

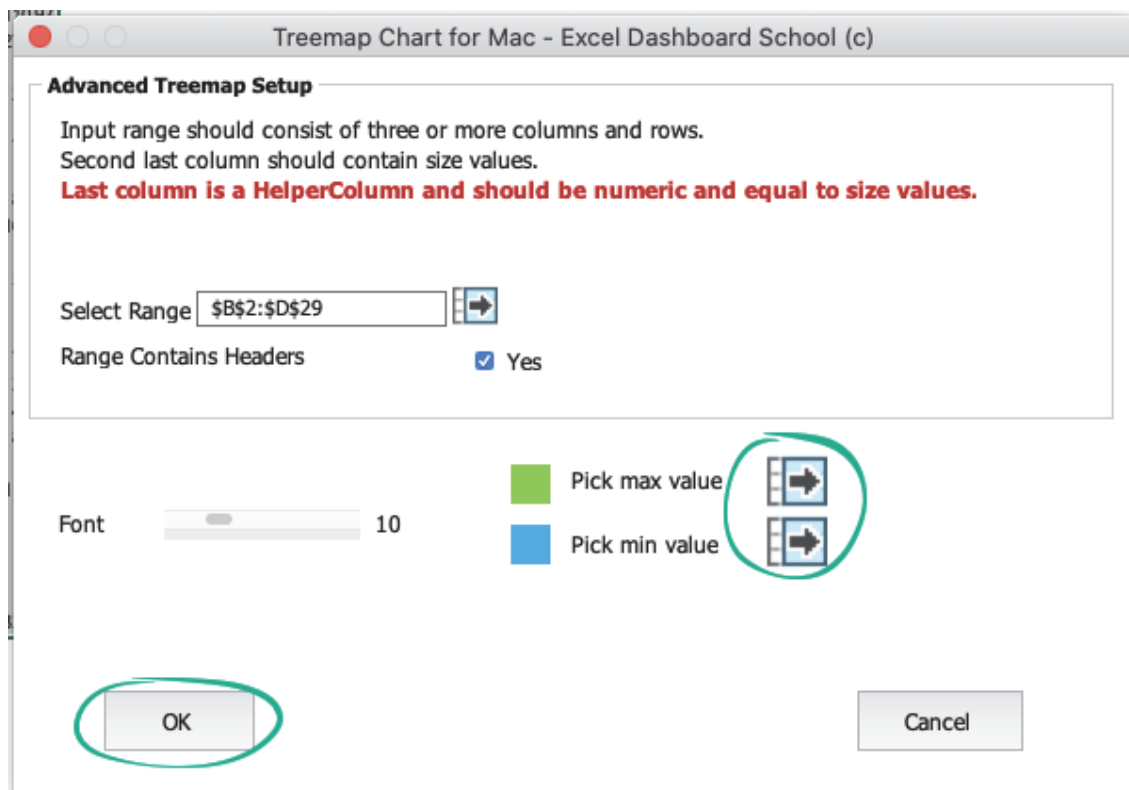

Select the range which contains Names and Values. You have to create a 3rd column, and it should be numeric and equal to size values.

	Country	Market Value	HelperColumn
1			
2			
3	Australia	96.65	96.65
4	Belgium	3.76	3.76
5	Bermuda	5.7	5.7
6	Brazil	110.97	110.97
7	Switzerland	118.99	118.99
8	Taiwan	14.79	14.79
9	Thailand	12.18	12.18
10	Turkey	2.51	2.51
11	United Kingdom	44	44
12	United States	335.54	335.54
13			

Click on the chart icon!

Use the color picker to change the default colors for the minimum and maximum values.

Finally, click ok to Create Treemap! Just drag and drop the cursor over a map section. You can check the details!
