

# Ultimate Dashboard Tools 10 for Mac

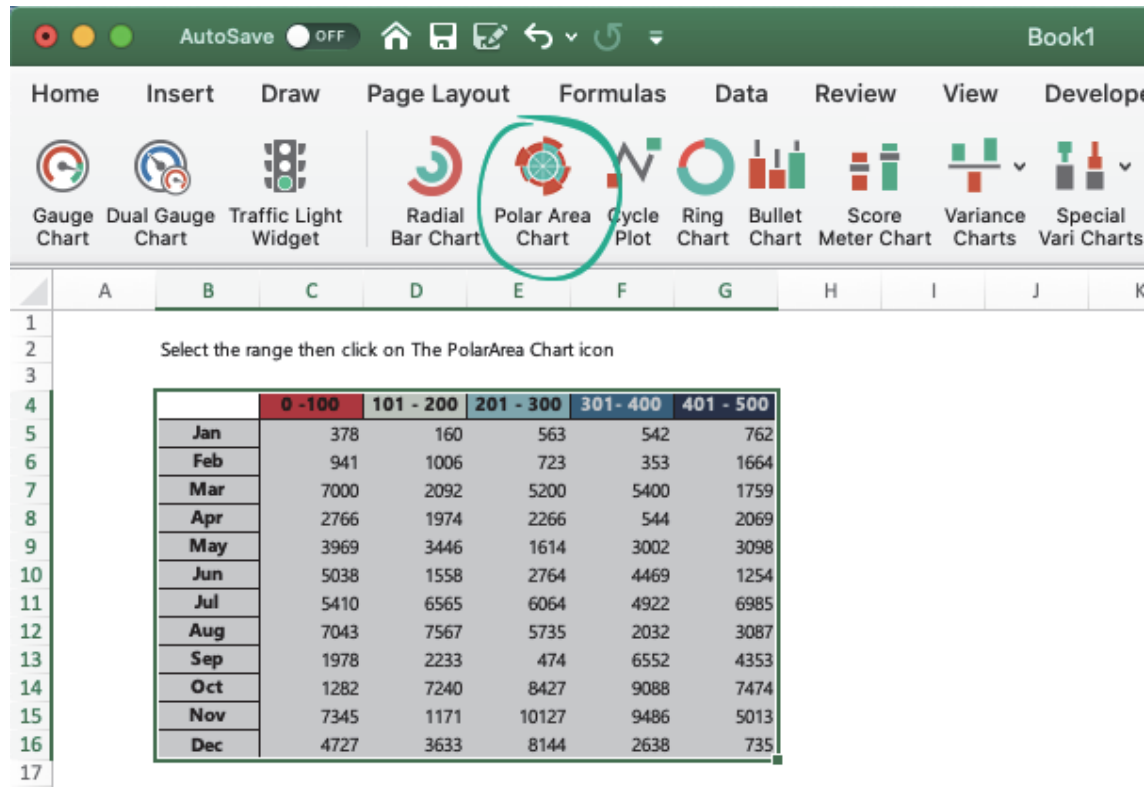

## Polar Area Chart

The polar area diagram is like a pie chart, but the sectors are the same angle and differ by extending from the center. This chart type is the best choice if you want to plot cyclical data.

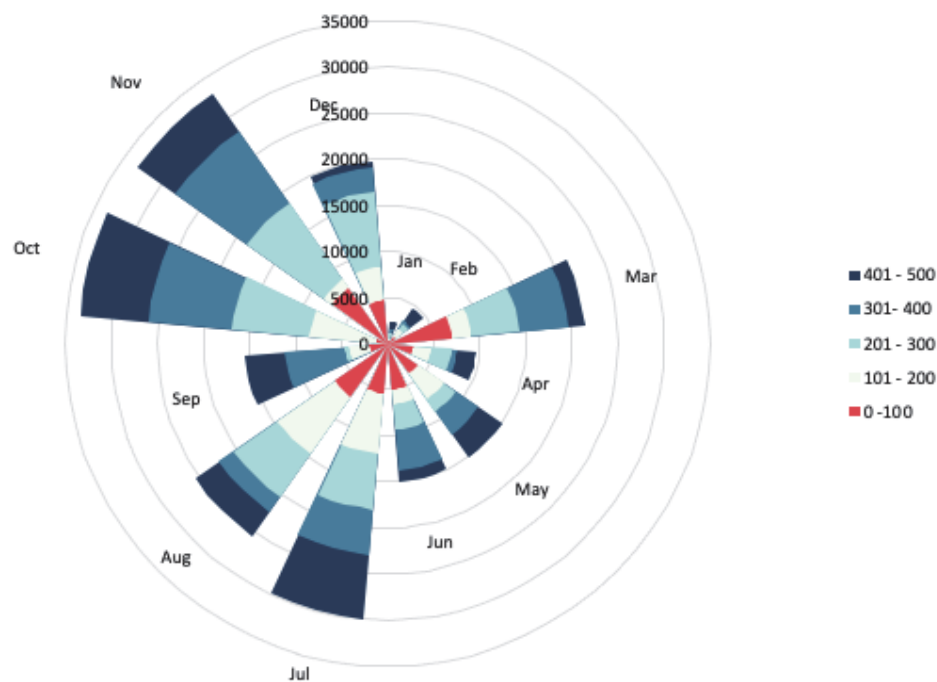

## How to create a polar area chart?

1. Select the range which contains data (categories and labels)

2. Click on the chart icon on the ribbon to create the radial bar chart

Maximum rows = 12

Maximum columns (categories) = 6
