

Progress Circle Chart

How to create a progress circle chart?

Select the range which contains Actual value, Color1, and Color2. Then, click on the chart icon on the ribbon to create the chart.

The screenshot shows the Microsoft Excel interface. The 'Data' ribbon is active, and the 'Ring Chart' icon is highlighted with a green circle. Below the ribbon, the following table is visible:

	A	B	C	D	E	F	G	H	I	J
1										
2		Value	Color1	Color2						
3		12%								
4										
5										
6										
7										
8										
9										
10										

To the right of the table, a ring chart is displayed. The chart has a yellow background and a blue segment representing 12%. The text '12%' is centered inside the ring.

Tip: if you want to change the font or doughnut hole size, right-click on the chart.
