# Ultimate Dashboard Tools v10
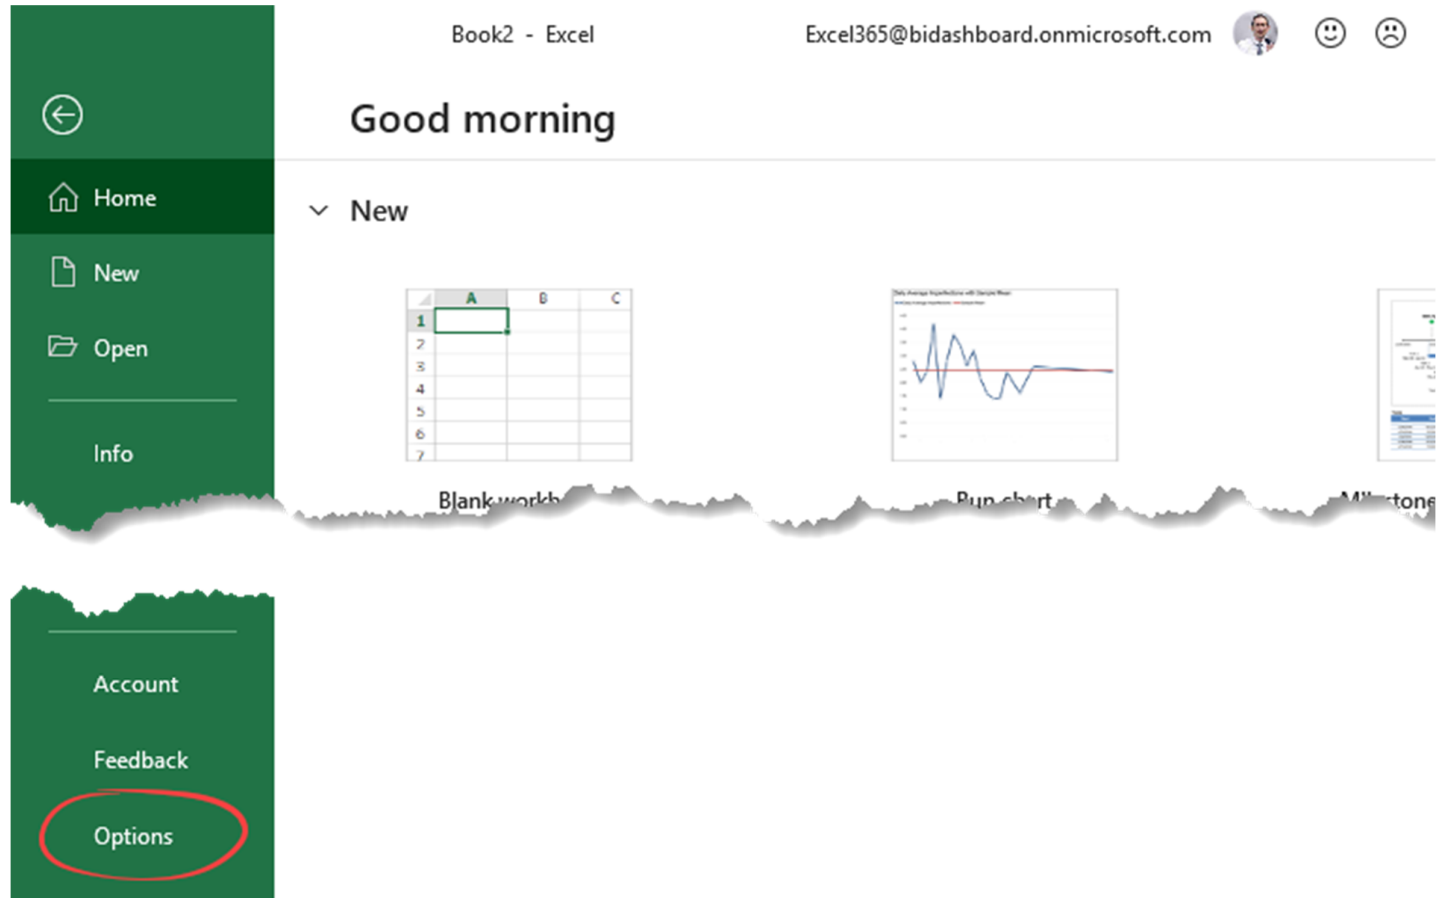

Add-in Installation Guide

# Download the package [UDT.zip] and extract the zip file content.

Now **Start Excel** to begin the installation.

Add-in Installation Steps

1. First, you need to enable the Developer Tab. **Click File -> Options**. A new window will appear.

2. Select the **Customize Ribbon** option, and make sure that the **Developer Tab** is checked. Click OK.
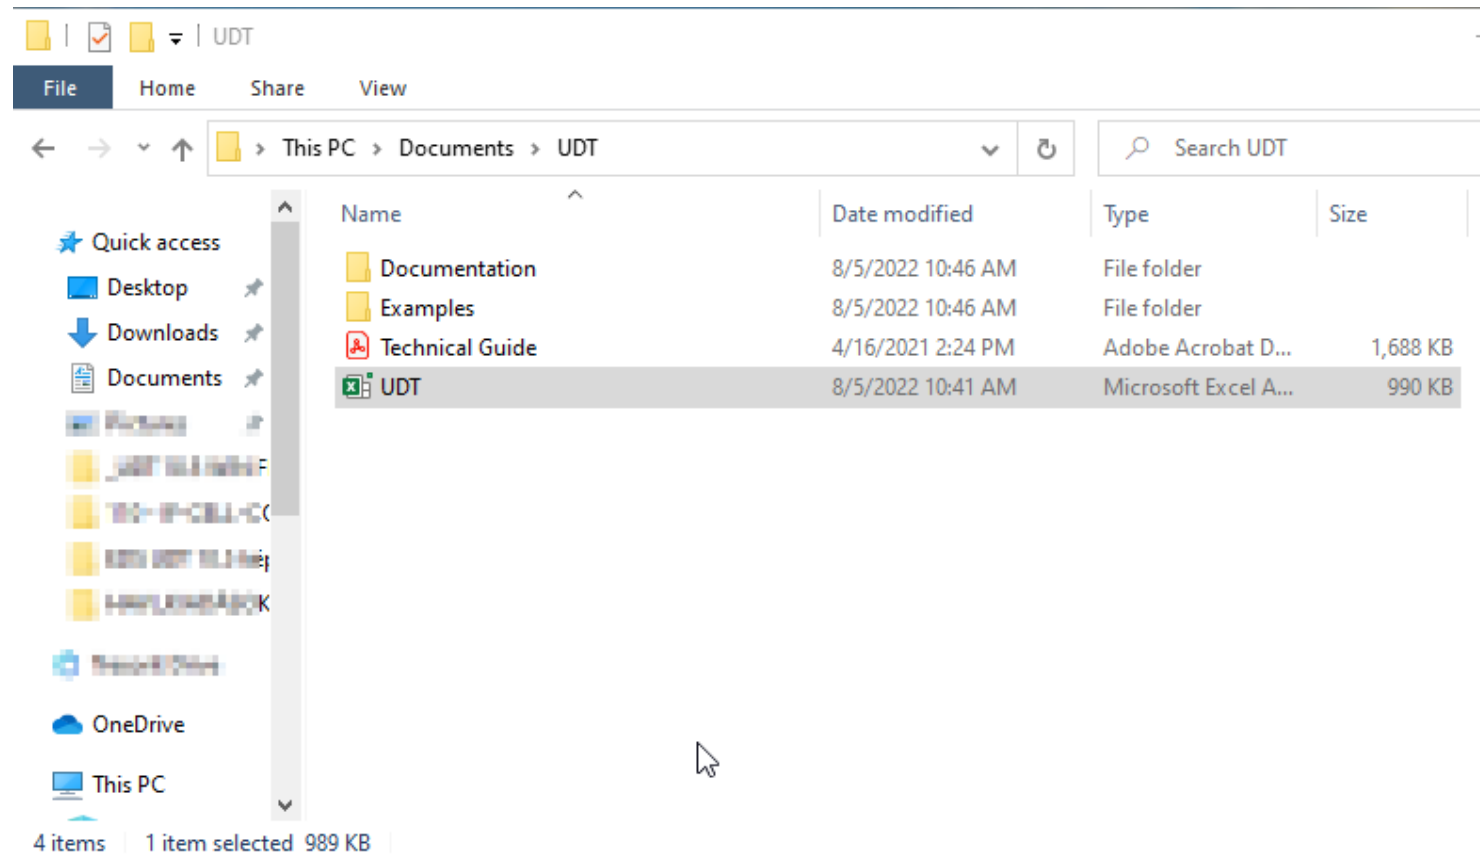

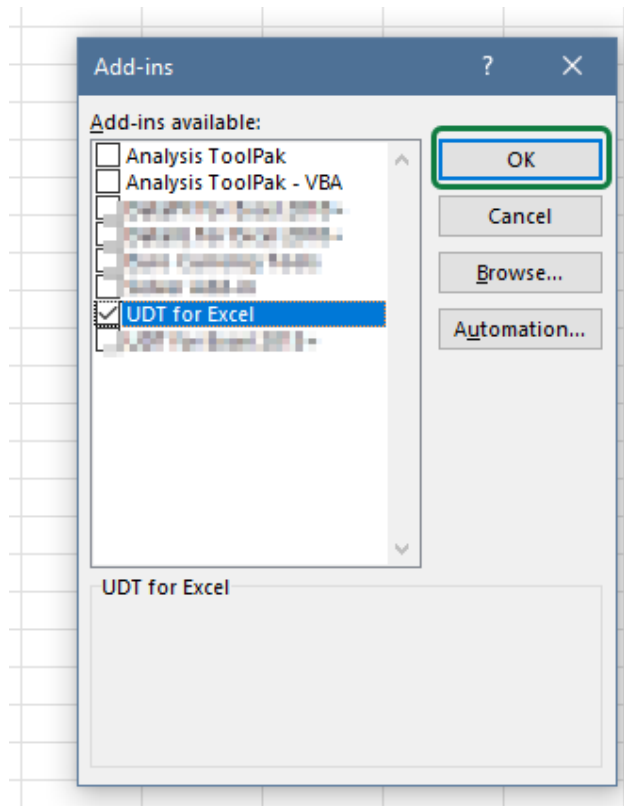

3. The **Developer Tab** is installed.

4. **Click Excel Add-ins** under the Add-Ins Group. The Add-ins dialog box appears. Click Browse.

5. The add-in is located on your computer and can be installed or activated by clicking Browse (in the Add-Ins dialog box) to locate the add-in. **Use the UDT.xlam file for Excel 2013, Excel 2016, Excel 2019, and Office365.**

6. In the Add-Ins available box, select the checkbox and then click OK.

Now UDT is ready to use!
