

# Ultimate Dashboard Tools 10 for Mac

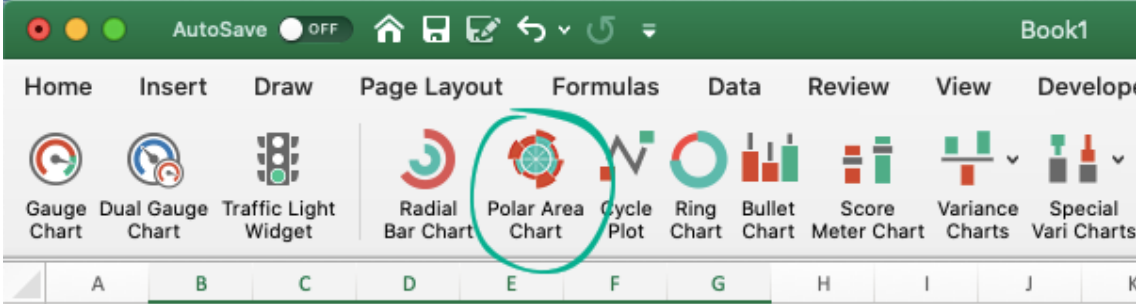

## Polar Area Chart

The polar area diagram is like a pie chart, but the sectors are the same angle and differ by extending from the center. This chart type is the best choice if you want to plot cyclical data.

## How to create a polar area chart?

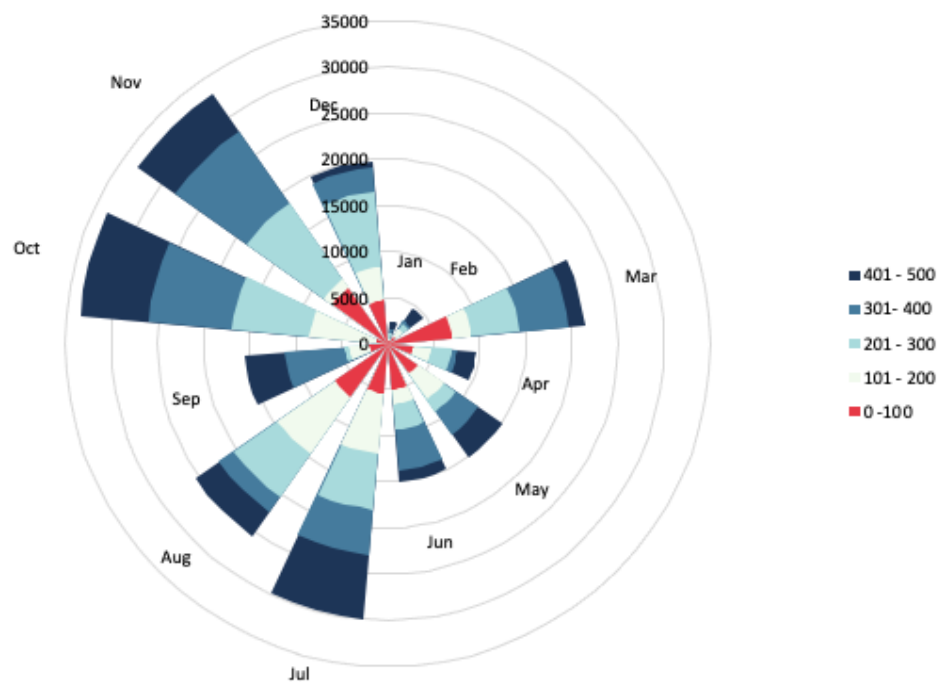

1. Select the range which contains data (categories and labels)

The screenshot shows the Excel ribbon with the 'Formulas' tab selected. The 'Charts' group is visible, and the 'Polar Area Chart' icon is circled in red. Below the ribbon, a table of data is displayed, representing the source data for the chart.

	0 - 100	101 - 200	201 - 300	301 - 400	401 - 500
Jan	378	160	563	542	762
Feb	941	1006	723	353	1664
Mar	7000	2092	5200	5400	1759
Apr	2766	1974	2266	544	2069
May	3969	3446	1614	3002	3098
Jun	5038	1558	2764	4469	1254
Jul	5410	6565	6064	4922	6985
Aug	7043	7567	5735	2032	3087
Sep	1978	2233	474	6552	4353
Oct	1282	7240	8427	9088	7474
Nov	7345	1171	10127	9486	5013
Dec	4727	3633	8144	2638	735

2. Click on the chart icon on the ribbon to create the radial bar chart

Maximum rows = 12

Maximum columns (categories) = 6
